Education

National Taiwan University (NTU)

Taipei, Taiwan

B.S.E. in Electrical Engineering

Sept. 2011 - Jan. 2016

- Overall GPA 3.77 / 4.30
- Graduate Courses Taken: Advanced Digital Signal Processing, Advanced Digital System Design, Time-frequency Analysis and Wavelet Transform, Music Signal Analysis and Retrieval.

Research Experience

Smart Interaction & Multimedia Design Lab, Tatung University

Taipei, Taiwan

Research Assistant

Aug. 2014 - Aug. 2016

- Proposed a system [2] to control CAD software via imagination using EEG signal.
- Built a real-time system [2] which receives cognitive signals from Emotiv EPOC+ neuroheadset and perform corresponding commands on 3ds Max and Rhino.
- Proposed an audience feedback system [1] for performing art.
- Built a wearable digital system [1] to measure the conductivity on the skin and transmit the data back to backend responsive server.

Sensortek Technology Corp. and Access IC Design Lab

Hsinchu and Taipei, Taiwan

Researcher for Industry-University Cooperative Research Project

July 2014 - June 2015

- Provided research studies and biomedical signal processing techniques to Sensortek Technology Corp. on several topics including Photoplethysmography (PPG) and continuous blood pressure (CBP).

Ministry of Science and Technology, R.O.C.

Taipei, Taiwan

Researcher for Undergraduate Research Project

July 2014 - Feb. 2015

- Topic: Design and Implementation of Motion Artifact Reduction Technique for Photoplethysmography (PPG).
- Granted NTD \$47,000.

Access IC Design Lab, National Taiwan University

Taipei, Taiwan

Researcher for Special Project

Sept. 2013 - Feb. 2014

- Implemented, synthesized and tested 64-point pipelined Radix 2^2 Single-path Delay Feedback (SDF) Fast Fourier Transform (FFT) processor in RTL level using Verilog (hardware description language) and CAD tools.

Industrial Experience

COMDEK Industrial Corp.

New Taipei City, Taiwan

Full Stack Developer

June 2015 - June 2016

- Independently developed a remote healthcare system named Central Station from scratch.
- Implemented Redis database, real-time Node.js server on Debian Linux, and client side module on MediaTek LinkIt 7688.
- Central Station is now under testing, and it will become a product in the next few years. [\[pdf link\]](#)

Part-Time System Engineer

June 2014 - June 2015

- Built a system program based on 8051 MCU for portable pulse oximeter named MD-600P from scratch. [\[pdf link\]](#)
- Built a commercial differential counter named MD-200 based on ATmega64 for medical experiments. [\[pdf link\]](#)

Honors & Awards

Technical

- | | | |
|------|---|----------------------|
| 2015 | Silver Medal Award , Altera Innovate Asia FPGA Design Competition
— Proposed a product based on FPGA which modulates the music with the accelerated signal. | <i>International</i> |
| 2015 | Second Prize Award , Integrated Circuit Design Contest
— Ranked 2nd nationally in the cell-based digital circuit category. | <i>National</i> |
| 2015 | Tenth Place , IEEE Signal Processing Cup
— Ranked 10th globally in motion artifact reduction of PPG signal. | <i>International</i> |

Innovation & Business

- | | | |
|------|---|------------------------|
| 2015 | Second Prize Award , NTU Innovation Contest
— Innovated and built a hardware using PPG and accelerated signal to provide a new user experience. | <i>Intramural, NTU</i> |
| 2013 | Selected , Samsung Mobilers
— One of 36 Mobilers in Samsung Taiwan. | <i>National</i> |

Skills

- Programming** Matlab, C/C++, Verilog, HTML/CSS/JavaScript, \LaTeX
Hardware FPGA, ASIC, MCU
Languages Mandarin Chinese (Native), English (Fluent)
Game of Go 5 dan amateur, certificated by Go Association of Republic of China

Research Interests

- 1 Digital Signal Processing
- 2 VLSI
- 3 Human-Computer Interaction

Community Services

- | | |
|---|--|
| New Taipei Municipal Sanzhi Junior High School
Mobile Learning Specialist (Civilian Service)
• Provided technical support and counseling to teachers on the aspect of mobile devices and applications. | <i>New Taipei City, Taiwan</i>
<i>July 2016 - PRESENT</i> |
| National Taiwan University Orientation Camp
Group Leader
• Led and provided additional support to freshmen. | <i>Taipei, Taiwan</i>
<i>June 2013 - Sept. 2013</i> |
